

PLAYGROUND

Rubber TILES

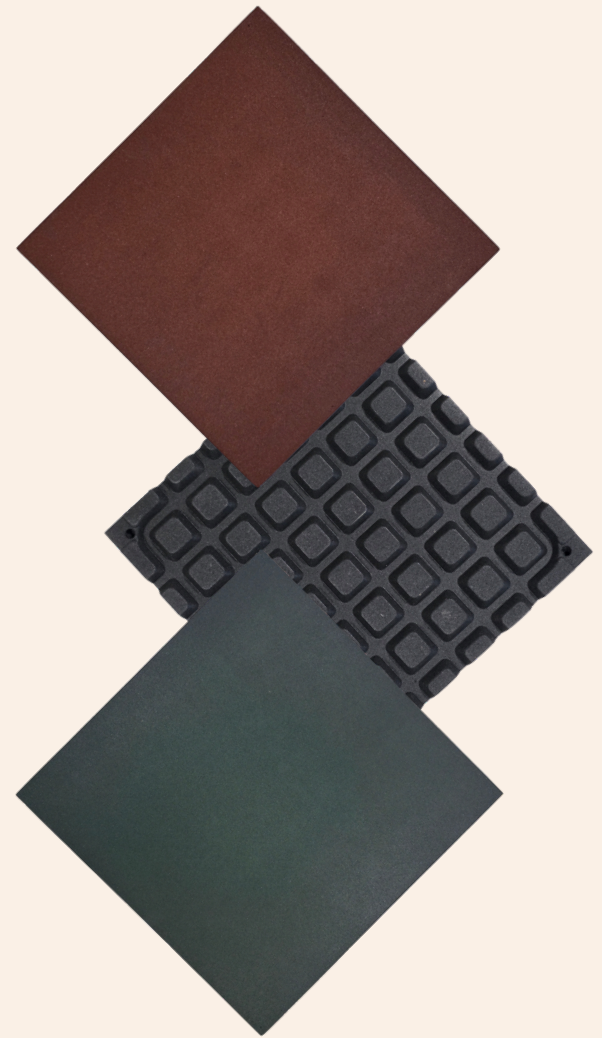

Outdoor rubber playground tiles are a safe, durable, and low-maintenance flooring solution designed for playgrounds, play areas, and recreational spaces. These tiles provide impact absorption, reducing the risk of injuries from falls.

Key Benefits:

- ✓ Safety & Shock Absorption – Meets fall height safety standards to protect children from injuries.
- ✓ Weather Resistance – UV-resistant and can withstand rain, snow, and extreme temperatures.
- ✓ Slip-Resistant Surface – Reduces the risk of slipping, even when wet.
- ✓ Easy Installation & Maintenance – Can be installed over concrete, asphalt, or compacted gravel using interlocking edges or adhesive.
- ✓ Eco-Friendly Options – Tiles are made from recycled rubber, making them an environmentally friendly choice.
- ✓ 2" thick – Ideal for playgrounds with fall heights up to **6 feet**.

Common Applications:

- 🏀 Playgrounds & Daycare Centers
- 🧘 Outdoor Fitness Areas
- 🏡 Backyard Play Areas
- 🐾 Dog Play Areas
- ♿ ADA-Compliant Accessible Pathways
